Meritor MDP3000 Range

The MDP3000 series from Meritor set new standards in commercial vehicle aftermarket disc brake pads. The brake pads featuring the M520 friction material are manufactured to the highest standards in a TS-16949* accredited state-of-the-art Meritor approved facility.

With pads to fit the most popular truck and trailer applications the MDP3000 series now come complete with fitting kits (where applicable).

NEW PRODUCT!

Meritor MAX Premium Range

The MAX premium brake pads are the latest addition to Meritor Australia's product line-up. They represent the next step-up in performance and durability from Meritor's popular MDP3000 standard series.

The MAX pads are designed especially for applications with high brake usage and high brake temperatures such as city buses, garbage trucks, coaches and frequent start-stop truck applications.
