DYNO TESTING SPECIAL

Dyno testing services

Fixed price dyno test and report

There's one way to ensure you are getting the optimum performance out of your engine: a dyno test carried out by specialists. Assessing the health of your engine, a dyno test can identify underlying issues that need to be addressed before the issue escalates.

With Penske Australia's team of highly-specialised factory-trained technicians, your asset will receive the best of care with an effective solution.

Make a booking at your local Penske Australia branch to maximise the power and fuel economy of your engine.

Power run only – does not include diagnostics

Not sure if you are getting optimum power and economy out of your engine? Visit our Penske Australia Sydney branch to understand how your engine is performing.
